2021

## Languages

English (Professional)

Turkish (Native)

## Profile

I'm Aytaç Aykaç, a UX/UI Designer who started thinking about design while studying architecture. One of my greatest achievements during my solid **human-centered design** education was being able to **design the human experience**. As a designer who cares about **human-product interaction** and the human experience in that interaction, I am more interested in working with digital products. So, I'm developing my skills in the field of UX/UI.

## Experience

- Architect | NOV - 2023  
CORAL Facade Systems | PRESENT

I worked in the architectural facade design processes for different types of buildings to meet the demands of customers.

- project monitoring and evaluation
- facade system selections for projects
- producing 2D drawings for facade systems

- Freelance Designer | FEB - 2023  
Freelance | NOV - 2023

I worked as a freelancer for project-based jobs in the fields of UX/UI and architectural modeling-visualization.

- creating UI designs via Figma
- identifying and detailing UX processes
- architectural facade design, modelling and rendering
- creating 2D floor plan visuals

- Architectural Designer | SEP - 2021  
Altunkeser Architecture | FEB - 2023

I worked as a design architect in the architectural design process of residential and commercial building projects.

- creating architectural designs
- creating facade designs
- architectural 3D modeling and rendering
- generating quantity surveys

- Intern Architect | JUL - 2021  
Altunkeser Architecture | SEP - 2021

I contributed to the architectural project design process of apartment, villa and commercial projects.

- creating 2D floor plan visuals
- creating architectural design for housing projects
- 3D modelling and rendering processes

- Intern Site Architect | JUL - 2019  
YDA Group | SEP - 2019

I took part in the YDA Söğütözü project, which consists of residences and offices.

- auditing implementations for architectural standards
- field inspection to ensure project-application integrity
